New York State Department  
of Environmental Conservation  
Division of Materials Management  
Pesticide Product RegistrationClassified for  
"RESTRICTED USE"  
in New York State  
under 6NYCRR Part 326The Syngenta logo, featuring the word "syngenta" in a lowercase, sans-serif font with a stylized leaf above the 'y'.The NIRA logo, consisting of the letters "NIRA" in a large, bold, serif font with a stylized leaf above the 'I'.**Section 24(c) Special Local Need Label****FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF NEW YORK****Tribune™****EPA REG. NO. 100-1390****EPA SLN NO. NY-120007****This labeling must accompany every container of Tribune (EPA Reg. No. 100-1390)  
sold in New York State, regardless of the intended use.****For Control of Weeds in Aquatic Areas**FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL  
MAY RESULT IN POOR PEST CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable directions, restrictions, and precautions including statements pertaining  
to the Worker Protection Standards, on the EPA-registered Tribune label.

This label must be in the possession of the user at the time of application.

**AQUATIC USE DIRECTIONS****The aquatic use directions on this labeling are the only aquatic uses allowed in New  
York State.**For application only to ponds, lakes, and drainage ditches where there is little or no outflow of  
water and which are totally under the control of the product's user. Do not use the treated  
water for animal consumption, spraying, irrigation, or domestic purposes for 14 days after  
treatment.Do not treat water where depth is 3 feet or less. Where water is 3 feet or more deep use the  
following rates based on weeds present. Dilute all applications by mixing with water prior to  
treatment at a dilution of one part product per **50** parts or more, water. **Apply only by spray  
to surface of lake or pond.**

WEED SPECIES	USE RATE - GALS/SURFACE ACRE	APPLICATION
<b>Submerged Weeds</b> (Infesting Still Ponds, Lakes, Ditches or Portions Thereof):		
Bladderwort ( <i>Utricularia</i> spp.)	1-2	In mixed weed population use the high rate of application as indicated by weeds present
Coontail ( <i>Ceratophyllum demersum</i> )	2	
Elodea ( <i>Elodea</i> spp.)	2	
Naiad ( <i>Najas</i> spp.)	1	
Pondweeds, ( <i>Potamogeton</i> spp.) *		
*Except <i>P. robbinsii</i> ; also Richardson Pondweed ( <i>P. richardsonii</i> ) in Minnesota.	2	
Watermilfoil ( <i>Myriophyllum spicatum</i> )	1-2	
<b>Floating Weeds:</b>		
Pennywort ( <i>Hydrocotyle umbellata</i> )	1/2 - 3/4	200 gals of water plus 1 pt of a 75% spreader (non-ionic) should be applied as an overall spray for the control of the weeds. The high rates of Tribune should be use for late season application.
Salvinia ( <i>Salvinia rotundifolia</i> )	1/2 - 3/4	
Water Hyacinth ( <i>Eichhornia crassipes</i> )	1/2 - 3/4	
<b>Duckweed</b> ( <i>Lemna</i> spp and <i>Spirodela</i> spp)	1	For control, apply Tribune as an overall spray in 200 gals. of water plus 1 pt of a 75% spreader (non-ionic) per acre. Care should be taken to thoroughly cover all plants on water and limit application to damp marginal areas greater than 3 feet in depth. Reinfestation of Duckweed occurs readily from untreated areas. Retreatment with Tribune may be necessary to obtain season long control

WEED SPECIES	USE RATE - GALS/SURFACE ACRE	APPLICATION
<b>Marginal Weeds</b> (Infesting the Edges and Other Portions of Ponds, Lakes, and Ditches):		
Cattails ( <i>Typha</i> spp. only in areas of three feet in depth or more)	1	For top kill apply Tribune in 200 gals water plus 1 pt of a 75% spreader (non-ionic) for full coverage and thorough weed contact. Repeat treatment as necessary to control regrowth. For best results apply before flowering.

#### Formula for Parts per Million (ppm) Recommendations

Gals to use = ppm recommended x acreage of water x average depth of water x 1.4. For example - 1/2 ppm recommendations; two acre pond; 4 feet average depth; 1/2 x 2 x 4 x 1.4 = 5.6 gals required.

**Restrictions: (1) Do not use Diquat for Algae control in N.Y. (2) Do not combine copper with Diquat in N.Y. (3) Do not apply by air in N.Y. (4) Do not use for control of waterlettuce in N.Y. (5) Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.**
