

MASTER THE **POWER AND BEAUTY** OF WATER

20W LED Retrofit Kit (Halogen Retrofit)

AquaMaster® Fountains and Aerators is happy to announce that we now offer a new 20W LED retrofit kit for existing halogens. The kit is a drop-in assembly to replace existing **AquaMaster®** Night Glow Lighting 150-250W halogen light fixtures. A wide operating range makes them perfect for 120V and 220V lights. LEDs provide lower operating costs and increased lifetime over halogens. The new 20W LED retrofit by **AquaMaster® Fountains and Aerators** will allow users to extend the life of their existing halogen light sets making them enjoyable for many years to come. The 20W LED Retrofit Kit is backed by a 1 year warranty on parts.

Contact an Authorized AquaMaster® Distributor for additional details and pricing!

20W LED Retrofit Kit Features

- Available in White only; no colors
- Approximately equal to 250 watt incandescent light bulb
- Longer lasting and lower operating costs than halogen
- Long lasting : 40,000 - 45,000 hours

20W LED Retrofit Kit Part Number

- 760933

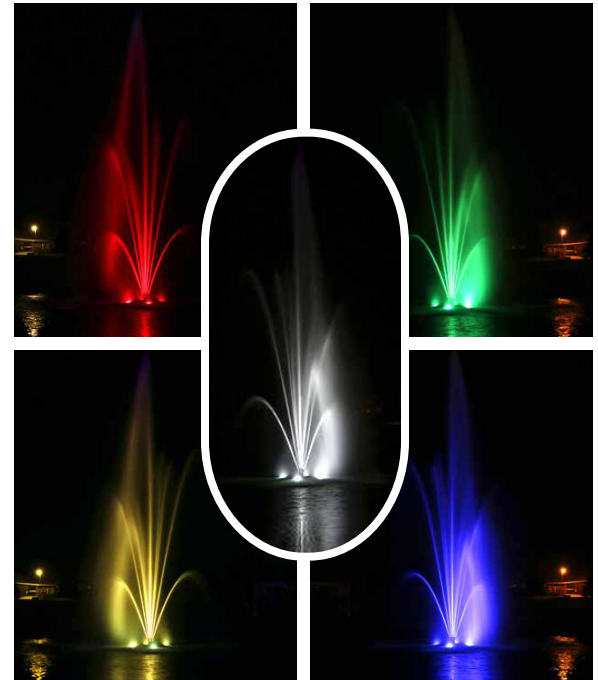

New 22 Watt LED Night Glow Lighting

AquaMaster® Fountains and Aerators introduces our next generation of LED Night Glow Lighting with a new 22 watt model. This replaces the outgoing 18W & 21W LED models. This new 22W LED model is more efficient, provides greater light output, and produces a brilliant color generated by a specific color diode board versus the 18W & 21W lens versions.

Contact an Authorized AquaMaster® Distributor for additional details and pricing!

22 Watt LED Features

- Replaces 18W & 21W LED models
- 350W halogen equivalent
- Color diode boards for brilliant color
- Available colors – red, blue, green, amber, and cool white (5000K)
- 3 year warranty
- Low operating cost
- Long lasting : 40,000 - 45,000 hours
- Stainless steel fixtures, brackets, and shielded jumper cables
- Simple underwater power cable connector (Aqua Lock Connector – ALC)
- Available in 120V & 220V
