

MASTER THE **POWER AND BEAUTY** OF WATER

40 WATT LED RGBW

AquaMaster® Fountains and Aerators proudly introduce programmable, color changing fountain lighting to its Night Glow Lighting System offering. These new RGBW (red, green, blue, white) LED lighting systems consist of 40W fixtures, panel mounted controller and power supply that produce brilliant colors and shows. Customizable programming to meet color, show type, calendar and holiday events available. As with all AquaMaster LED Night Glow Lighting Systems, these new RGBW LED sets are constructed of high quality stainless steel, operate efficiently with minimal cost, long lasting, and backed with a 3 year warranty.

Refer to website (<http://www.aquamasterfountains.com/night-glow/RGBW>) to view video of RGBW LED color changing program in operation.

Contact an Authorized AquaMaster® Distributor for additional details and pricing!
