

Why Choose SOLitude?

We believe clean, beautiful lakes promote good health, happiness, and meaningful experiences. When you partner with our aquatic professionals, you and your stakeholders will avoid the frustrations of unsightly water and begin to enjoy the waterbody you deserve.

Receive Expert Care and Achieve Long-Lasting Results

- Our team of biologists, ecologists, and environmental scientists receive superior training to ensure your waterbody is receiving expert care.
- We are equipped with the most advanced technology, tools, products, and equipment that help us better serve our clients and provide long-lasting results.
- Our goal is to provide unparalleled customer service through prompt communication and free educational resources. Clients can manage their water with ease through our Customer Portal, friendly customer service representatives, and their local aquatic specialists.

3 Steps to Reaching Your Ideal Waterbody

With over 50 years of experience, our team of lake management professionals has helped communities, golf courses, municipalities, and private landowners achieve the beautiful water they deserve. We can help you too! Experience worry-free water management in three steps:

1. Set Up A Free Consultation

2. Build A Management Plan

3. Enjoy Your Water!

The SÖLitude Mission

Preserving and Protecting Ecological Balance

In addition to providing superior service, we've made it our mission at SÖLitude Lake Management to continuously educate our clients and promote sound environmental stewardship. We feel it is important to not only be good stewards of the environment, but also to fulfill our core values which include "take action and be accountable" and "protect and respect nature." Our colleagues actively volunteers to help our local communities in need and follows sustainable practices to help fulfill our overall mission for creating a better world.

The SÖLution

creating a better world

The SÖLution is a company-wide program that encourages the company and all employees to strive to "create a better world" through volunteerism, community outreach, sustainability and environmental consciousness. Join us in being part of The SÖLution:

The SÖLitude Sustainability Pledge

We hereby pledge...

- To provide sustainable and renewable lake, pond and wetland management solutions.
- To help preserve and, wherever possible, improve the natural ecological balance of our surroundings and the communities we serve.
- To recycle and reuse all non-renewable resources to the greatest extent possible.
- To replace older lake and pond management technology with the latest environmentally friendly solutions.
- To provide our clients with integrated and sustainable lake and pond management strategies that reduce the need for pesticides.
- To utilize the most ecologically friendly herbicides that allow for safe, selective and systemic plant growth control.
- To help restore and maintain ecological balance by providing solutions that work in harmony with nature to achieve lasting results.
